

## TAPESONIC WIRELESS

# TapeSonic

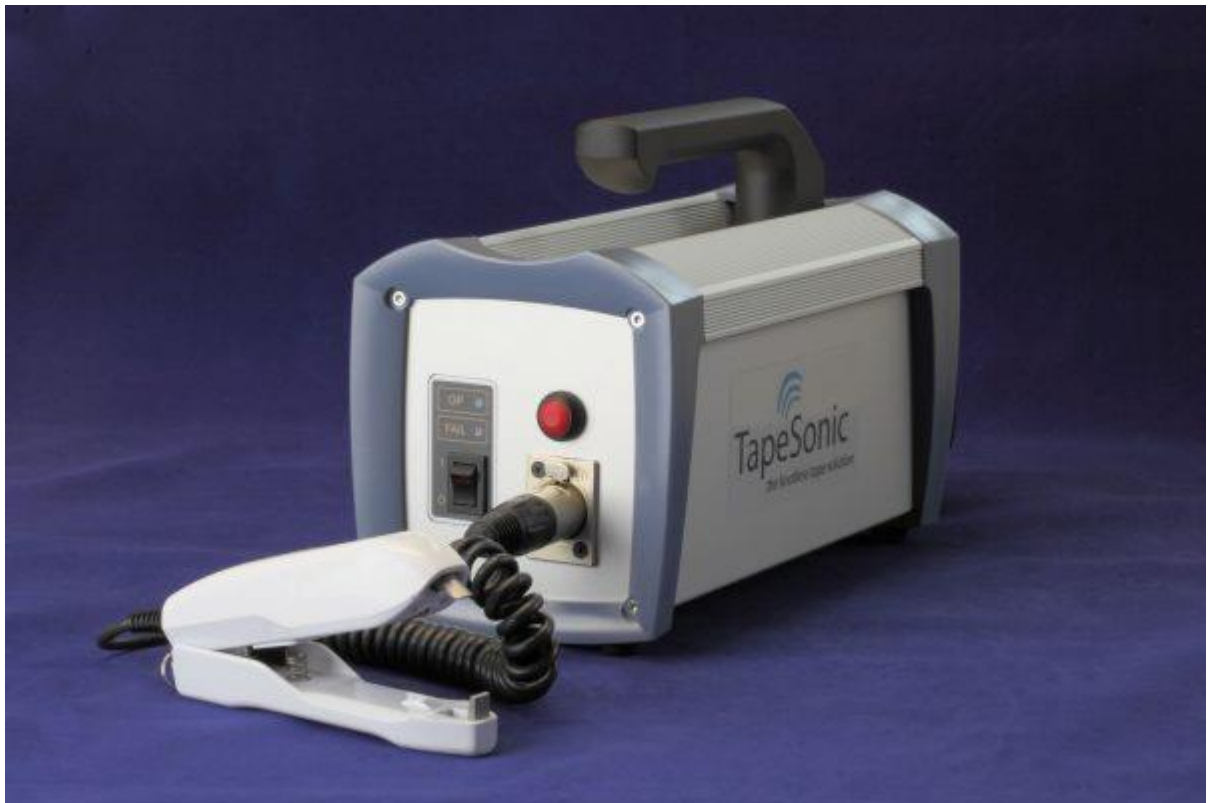

Ultrasonic hand welder for ironer tapes with network operation

Ultrasonic hand welder for ironer tapes with powerful Li-Ion batteries

### ADVENTAGES:

- german quality product
- manufactured according to german industrial standards
- MAKITA Li-Ion quality brand batteries
- with battery deep discharge protection
- with battery energy saving function
- up to 2000 spot welds with one battery charge
- extremely safe application

## HANDLING:

- take the welding plier in your hand
- take the two ends of the ironing tape overlapping in the other hand
- guide the overlap between the two welding tips
- close the pliers with a little pressure
- the LED (OP) now lights up green
- after 2-5 seconds, the welding process is complete and the LED goes out
- the welding result depends on the material, material thickness and contact pressure

## technical information TAPESONIC WIRELESS:

oscillation frequency	57 kHz
max. Power output	22 W
max. Power consumption	45 W
voltage supply	14,4VDC / 3Ah Li-Ion battery
battery Typ	Makita BL 1430 14,4V/3Ah
<b>dimensions</b>	
power generator	310 x126 x 175 mm
welding pliers	32 x 125 x 49 mm (open)
<b>weight</b>	
power generator	2.4 kg
welding pliers	240g mit cable
protective device	thermostat, dry-weld protection
spot weld size	6 x 3 mm
